

# S3258/SM049 - Acquired Language and Neurogenic Communication Impairments/Adult Acquired Language and Cognitive Communication Disorders (Current Academic Year)

[View Online](#)

61 items

---

## Core texts (6 items)

This box contains the most important resources for this module. If you look anywhere, look here!

---

**A cognitive neuropsychological approach to assessment and intervention in aphasia: a clinician's guide** - Anne Whitworth, Janet Webster, David Howard, 2014

**Book** | **Essential** | This book is where you need to go to understand the cognitive neuropsychological model. I recommend you read all the chapters on single word processing to go with the lectures as they progress. Start with auditory comprehension, then move to verbal expression/naming, then reading and writing.

---

**Aphasia and related neurogenic communication disorders** - Ilias Papathanasiou, Patrick Coppens, 2017

**Book** | **Recommended** | There are useful chapters in this book on all areas of the module content.

---

**Aphasia and related neurogenic communication disorders** - Ilias Papathanasiou, Patrick Coppens, Constantin Potagas, 2013

**Book** | **Recommended** | This is an earlier edition. There are useful chapters in this book on all areas of the module content.

---

**Aphasia syndromes** - Murdoch, B.E.

**Chapter** | **Essential** | Module: S3258 (Scanned Extract)

This scanned extract will help you to understand the Boston system of aphasia classification.

---

**Classification of aphasia** - Goodglass, H.

**Chapter** | Module: S3258 (Scanned Extract)

---

**Manual of aphasia and aphasia therapy** - Nancy Helm-Estabrooks, Martin L. Albert, Marjorie Nicholas, ©2014

**Book** | **Recommended** | This is another useful textbook, with information on all the areas covered in the module. It is organised well and has some good examples. Very helpful if you are struggling to understand some of the core concepts.

---

## Aphasia clinical practice (3 items)

These references would be useful for you to read before going on placement with people with aphasia. They will also help you to understand person centred care for people with

aphasia and current thinking on provision of interventions.

---

**Which outcomes are most important to people with aphasia and their families? an international nominal group technique study framed within the ICF** - Sarah J. Wallace, Linda Worrall, Tanya Rose, Guylaine Le Dorze, Madeline Cruice, Jytte Isaksen, Anthony Pak Hin Kong, Nina Simmons-Mackie, Nerina Scarinci, Christine Alary Gauvreau, 2017-07-03

Article

---

**The top ten: best practice recommendations for aphasia** - Nina Simmons-Mackie, Linda Worrall, Laura L. Murray, Pam Enderby, Miranda L. Rose, Eun Jin Paek, Anu Klippi, 2017-02

Article

---

**SMARTER goal setting in aphasia rehabilitation** - Deborah Hersh, Linda Worrall, Tami Howe, Sue Sherratt, Bronwyn Davidson, 2012-02

Article

---

## Spoken Language Production and Breakdown (3 items)

More depth here on naming difficulties/spoken language breakdown. Read if this area sparks your interest or you are on placement and need to find out more about naming. If you are revising, the semantic processing book chapter would be a very helpful read.

---

**Words fail me: symptoms and causes of naming breakdown in aphasia** - Nickels, L. A.

Chapter | Essential | Module: S3258 (Scanned Extract)

Please read this chapter before the lecture on spoken word production in week 25.

---

**Distinguishing semantic and lexical word retrieval deficits in people with aphasia** - David Howard, Claire Gatehouse, 2006-09

Article | Recommended | This is a useful paper for explaining how different levels of impairment can lead to similar errors in spoken word production.

---

## Semantic Processing: Theory and Practice

Book | Background | Chapter five of this book is very helpful for understanding different causes of semantic impairment and for semantic therapy.

---

## Reading and Writing Difficulties (3 items)

See the core texts for most of the reading you will need in this area. I am including some extra references here for those who want to read in more depth or need further information for clinics.

---

**Aphasia and literacy-the insider's perspective** - Emma Kjellén, Katja Laakso, Ingrid Henriksson, 2017-09

Article

---

**Everyday reading and writing practices of normal adults: Implications for aphasia assessment** - Susan Parr, 1992-05

Article

---

**Text level reading comprehension in aphasia: What do we know about therapy and what do we need to know?** - Janet Webster, Julie Morris, Carli Connor, Rachel Horner, Ciara McCormac, Amy Potts, 2013-11

**Article** | **Background** | An interesting paper testing out different types of reading therapy approaches and considering the need for more sensitive assessments. Not core reading.

## Assessment of Aphasia (3 items)

Again, check the core textbooks first. Here you will find more focused reading.

---

**Application of the ICF in Aphasia** - Nina Simmons-Mackie, Aura Kagan, 2007-11

**Article** | This is an excellent article to get you thinking holistically about aphasia.

---

**Language Intervention Strategies in Aphasia and Related Neurogenic** - Roberta Chapey, 2008

**Book** | In particular the chapter by Murray, Laura, and Roberta Chapey. "Assessment of language disorders in adults."

---

**Assess for Success: Evidence for Therapeutic Assessment** - Deborah Hersh, Linda Worrall, Robyn O'Halloran, Kyla Brown, Brooke Grohn, Amy D. Rodriguez

**Chapter** | Only available in print in the LRC - reference copy and 1-day loan copy available

---

## Issues around intervention (5 items)

Some literature to consider when taking decisions on provision of speech and language therapy for aphasia. Useful when working through case studies or on clinical placement. If you are working with people with aphasia you should have knowledge of the Cochrane review findings. These are very important.

---

**Speech and language therapy for aphasia following stroke** - Marian C Brady, Helen Kelly, Jon Godwin, Pam Enderby, Pauline Campbell, 2016-06-01

**Article**

---

**Speech and Language Therapy for Aphasia After Stroke** - Marian C. Brady, Jon Godwin, Pam Enderby, Helen Kelly, Pauline Campbell, 2016-10

**Article** | A very important article on the effectiveness of SLT for aphasia.

---

**Predicting outcome and recovery after stroke with lesions extracted from MRI images** - Thomas M.H. Hope, Mohamed L. Seghier, Alex P. Leff, Cathy J. Price, 2013

**Article** | **Background** | A study looking at using brain scans to predict recovery. One to keep an eye on!

---

**Predicting language outcome and recovery after stroke: the PLORAS system** - Cathy J. Price, Mohamed L. Seghier, Alex P. Leff, 2010

**Article** | An article on the PLORAS study. Very interesting work on predicting outcomes of aphasia via brain scans.

---

**Post-stroke aphasia prognosis: a review of patient-related and stroke-related factors -**

Emily Plowman, Brecken Hentz, Charles Ellis, 2012-06

[Article](#)**Therapies/intervention approaches** (8 items)

Here I will put any specific therapies we discuss. The references here are just a flavour of the literature. I don't expect you to read all these but they might be relevant for a case you are working with and you may wish to return to this list.

---

**Challenging aphasia therapies: broadening the discourse and extending the boundaries -**

Sally Byng, Judith F. Duchan, 2004

[Book](#)

---

**Supporting communication for adults with acute and chronic aphasia - 2013**[Book](#)

---

**Therapy for naming difficulties in aphasia: Application of a cognitive neuropsychological model -**

Julie Nettleton, Ruth Lesser, 1991

[Article](#) | [Essential](#)

---

**Multi-modality aphasia therapy is as efficacious as a constraint-induced aphasia therapy for chronic aphasia: A phase 1 study -**

Miranda L. Rose, Michelle C. Attard, Zaneta Mok, Lucette E. Lanyon, Abby M. Foster, 2013-08

[Article](#)

---

**Investigating the effect of a semantic therapy on comprehension in aphasia -**

Julie Morris, Sue Franklin, 2012-12

[Article](#)

---

**Conversation Therapy with People with Aphasia and Conversation Partners using Video Feedback: A Group and Case Series Investigation of Changes in Interaction -**

Wendy Best, Jane Maxim, Claudia Heilemann, Firl Beckley, Fiona Johnson, Susan I. Edwards, David Howard, Suzanne Beeke, 2016-11-07

[Article](#)

---

**Training total communication -**

Pirkko Rautakoski, 2011-02-03

[Article](#)

---

**The Role of Semantic Complexity in Treatment of Naming Deficits -**

Swathi Kiran, Cynthia K. Thompson, 2003-08-01

[Article](#)

---

**Traumatic Brain Injury** (4 items)

The essential reading here is within the core texts. References below are if you are particularly interested. Chapters in Papathanasiou et al. and Helm-Estabrooks et al.

---

**Social and Communication Disorders Following Traumatic Brain Injury -** Skye McDonald, Leanne Togher, Chris Code

[Book](#)

---

**Traumatic brain injury: associated speech, language, and swallowing disorders** - B. E. Murdoch, Deborah G. Theodoros, 2001

[Book](#)

---

**Conversational discourse abilities following severe traumatic brain injury: a follow up study** - PAMELA SNOW, JACINTA DOUGLAS, JENNIE PONSFORD, 1998-01

[Article](#)

---

**Behavioral and Social Interventions for Individuals with Traumatic Brain Injury: A Summary of the Research with Clinical Implications** - Mark Ylvisaker, Lyn S Turkstra, Carl Coelho, 2005-11

[Article](#)

---

## Right Hemisphere Disorders (2 items)

See the core texts. Additional reading here if interested.

---

**Right hemisphere communication disorders: theory and management** - Connie Ann Tompkins, c1995

[Book](#)

---

**Right hemisphere damage: disorders of communication and cognition** - Penelope S. Myers, 1999

[Book](#)

---

## Language impairment in the dementias (2 items)

This is a specialist area but I suspect will become more and more part of SLT caseloads. The main information on what you need to know for this module is within slides and core texts.

---

**Assessment and therapy for language and cognitive communication difficulties in dementia and other progressive diseases** - Anna Volkmer, 2013

[Book](#)

---

**Cognitive-communication disorders of dementia: definition, diagnosis, and treatment** - Kathryn A. Bayles, Cheryl K. Tomoeda, 2014

[Book](#)

---

## Living with aphasia (2 items)

I really recommend these books as an easy read if you have never met anyone with aphasia. They are written with substantial contributions from people with aphasia and provide excellent insight.

---

**Talking about aphasia: living with loss of language after stroke** - Susie Parr, Sally Byng, Sue Gilpin, Chris Ireland, 1997

[Book](#)

---

**What is aphasia?** - Parr, S., Byng, S. and Gilpin, S.

[Chapter](#) | Module: S3258 (Scanned Extract)

---

## **Aphasia awareness and advocacy** (2 items)

These references are here to make you aware of poor global awareness of aphasia as an issue. Read them if you feel passionate about this problem!

---

**Aphasia: Awareness, advocacy, and activism** - Roberta J. Elman, Jennifer Ogar, Sidney H. Elman, 2000

[Article](#) | [Background](#)

---

**What is aphasia? Results of an international survey** - Nina Simmons-Mackie, Chris Code, Elizabeth Armstrong, Lillian Stiegler, Roberta J. Elman, 2002-08

[Article](#) | [Background](#)

---

## **Gesture and Drawing** (7 items)

These are not core texts but will be useful if working with people with severe aphasia or taking a total communication approach with a client.

---

**Revealing competence and rethinking identity in severe aphasia using drawing and communication book** - Carol Sacchett, Jayne Lindsay

[Chapter](#)

---

**Drawing together: evaluation of a therapy programme for severe aphasia** - Carol Sacchett, Sally Byng, Jane Marshall, Carole Pound

[Article](#)

---

**An Investigation into the Drawing Skills of Aphasic Adults** - Esther Rumble, Renata Whurr, 1998-01

[Article](#)

---

**A systematic review of gesture treatments for post-stroke aphasia** - Miranda L. Rose, Anastasia M. Raymer, Lucie E. Lanyon, Michelle C. Attard, 2013-09

[Article](#)

---

**Drawing: Its contribution to naming in aphasia** - Dana Farias, Christine Davis, Gregory Harrington, 2006-4

[Article](#)

---

**Gesture and speech integration: an exploratory study of a man with aphasia** - Naomi Cocks, Laetitia Sautin, Sotaro Kita, Gary Morgan, Sally Zlotowitz

[Journal](#)

---

**Computer delivery of gesture therapy for people with severe aphasia** - Jane Marshall, Abi Roper, Julia Galliers, Stephanie Wilson, Naomi Cocks, Sam Muscroft, Tim Pring, 2013-09

Article

---

## Miscellaneous other resources (11 items)

References that don't fit in any of the other boxes! These might be helpful if working on a dissertation related to aphasia or just if the subject fascinates you!

---

**Acquired speech and language disorders: a neuroanatomical and functional neurological approach** - B. E. Murdoch, 2010

Book

---

**Aphasia and its therapy** - Anna Basso, 2003

Book

---

**Aphasia and its therapy** - Anna Basso, 2003

Book

---

**Aphasia and related neurogenic language disorders** - 2018

Book

---

**Human cognitive neuropsychology: a textbook with readings** - Andrew W. Ellis, Andrew W. Young, 1996

Book

| This book would be useful in helping you understand cognitive neuropsychological approaches.

---

**Language intervention strategies in aphasia and related neurogenic communication disorders** - Roberta Chapey, 2008

Book

---

**Language intervention strategies in aphasia and related neurogenic communication disorders** - Roberta Chapey, Lippincott Williams & Wilkins, c2008

Book

---

**Neuropsychology: from theory to practice** - David G. Andrewes, 2001

Book

---

**What is cognitive neuropsychology** - Ellis, A.W. and Young, A.W.

Chapter | Module: S3258 (Scanned Extract)

---

**Assessment of language disorders in adults** - Patterson, J.P. and Chapey, R.

Chapter | Module: S3258 (Scanned Extract)

---

**Assessment and treatment of sentence processing disorders** - Marshall, J.

Chapter | Module: S3258 (Scanned Extract)

---
